## ABOUT US

Al Khalij Heavy Equipment & Engineering Co. LLC, a subsidiary of Galfar Engineering and Construction SAOG & Part of Al Siraj holding LLC is a leading provider of specialist logistics and Cranage services in the Sultanate of Oman

Founded in 1990, Al Khalij specializes in providing Rig Move & Support functions in Oman, Cranage & Heavy Lift contracts, Clearing & Forwarding, Transportation & Logistics Services in Oman as well as to neighboring GCC States to all levels of customer requirements.

Al Khalij has exhibited strong commitment to HSE, our HSE Management System is part of a structured approach that allows us to achieve HSE objectives and to manage HSE risks effectively. Our staff training, equipment specifications and maintenance programmes are designed to meet the stringent requirements of the Oman Oil & Gas sector as defined by PDO (Petroleum Development Oman) and the Omani Ministry of Oil and Gas.

Al Khalij has extensive covered and open workshop & warehouse facilities located at Ghala providing a clean and a safe working environment. All our systems are audited both internally and externally on a regular basis.

Al Khalij has highly skilled manpower and it strongly encourages the participation of nationals as part of Omanisation policy. All mandatory training courses required for work in the oilfield sectors are provided and upgraded regularly.

### VISION

To be the most respected brand for Logistics, Services in Oman by providing cost effective & reliable solution.

## O U R S E R V I C E S

### OIL & GAS LOGISTIC SUPPORT & TRANSPORTATION

Al Khalij has been providing the Oman Oil & Gas Sector with transport and logistics services for more than 22 years. We routinely provide both contractual and ad-hoc support to the majority of upstream operators in Oman and well as most of the oilfield services companies. Al Khalij has handled Projects Cargo deliveries directly for PDO, Occidental, and contractors working in the concession areas.

All our equipment meets the stringent requirements of Petroleum Development Oman (PDO). Our experienced staffs are trained to meet the procedural and safety requirements of our customers. All our equipment's are specified to Heavy Duty operational requirements in extremes conditions in the interiors and are also fitted with IVMS tracking.

We pride ourselves in providing "Door to Door" services from all Oman sea ports & Airports delivery of project cargo to site throughout Oman and GCC countries

## RIG MOVE FUNCTIONS

Al Khalij's also provides transportation of land-based drilling rigs between sites and across international borders.

Each rig move requires careful planning by the Rig Move Managers and Supervisors. This ensures that proper hazard and effect management programs are put in place and communicated to everyone prior to the start of the move. Sufficiently trained, qualified and experienced personnel, along with the necessary resources, are assigned to each job to ensure that it is managed safely and efficiently.

Our system to analyse each job or task is a process that identifies the hazards associated with the work and is a way of eliminating those hazards. In the case where hazards cannot be eliminated then controls or corrective measures are implemented. Provisions are made for:

Location/Road Surveys, Rig-Moving Vehicles, Cranage, Hazardous Loads, Fork Lifts, Personnel Vehicles, Repair Facilities, Supervisory Staff, Communication, Emergency Response & Escorts

## CRANAGE

Al Khalij excels in providing Crane Hire Services for long term erection work. It boasts of one of the largest Crane rental fleets and with their skilled team of Lifting specialists can provide adequate support for all types of Project Cargo movements. In the past, it has supplied its Cranes at major Construction Projects Viz Oman LNG, Sur Fertilizer, Sohar Refinery, etc. At present, the company has deployed its fleet of 50 Nos. of large & small cranes on various projects in Sohar, North & South Oman, Sur, Salalah, etc.

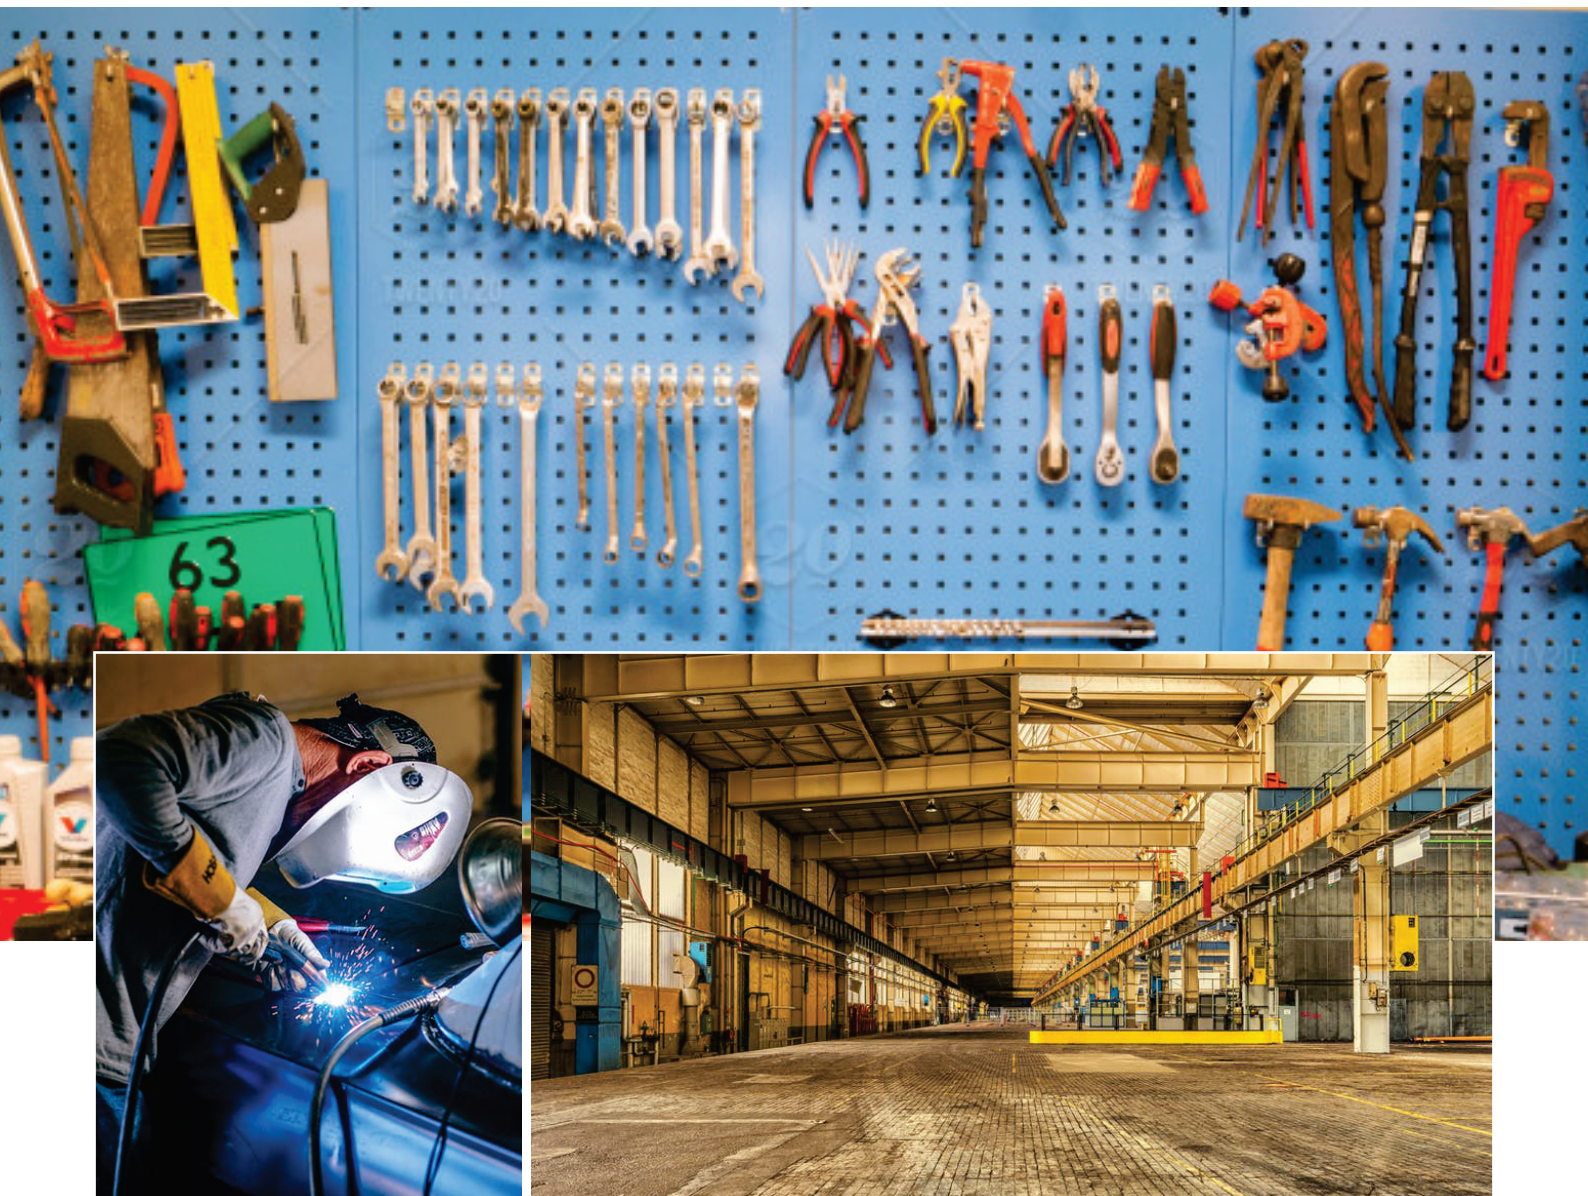

## MAINTENANCE, REPAIR & SERVICES

Al Khalij workshop at Ghala provides a clean and a safe working environment and has the following facilities

- Heavy & Construction Equipment
